

Jon Hailey  
 PADI # 359426  
 MSDT – 2018 Elite Instructor

Jon started diving in 2001 as just another adventure on the bucket list. It only took one dive to discover an unknown passion for the underwater world. “There is just something so cool about hanging out underwater!”

Within one year, Jon had advanced to the level of Dive Master and discovered another unknown passion for sharing his knowledge and experiences about scuba diving. After twelve years serving as a Dive Master, Jon became certified as Instructor and has been teaching with Dive West ever since.

“There are so many amazing things about diving. Obviously the amazing underwater world but, just as much, I love the friendships, exploration, discovery, learning and cultural experiences associated with travelling all over the world to scuba dive. I look forward to sharing diving with each of you through education and travel or just swapping stories and pics.

Come on in and we will get you set up for your Next Best Class and Trip!”
